®Mowital and Pioloform®09.01.2012

Certificate

®Mowital and Pioloform® – Absence of SVHC (Substances of Very High Concern) listed by ECHA published as of December 19th, 2011

®Mowital and Pioloform® meet the requirements of the absence of substances of very high concern (SVHC) published as candidate list by ECHA (European Chemicals Agency) as follows:

Due to the knowledge of the manufacturing process and the types of raw materials used, we confirm that components, listed by the ECHA as substances of very high concern are not used to produce our ®Mowital and Pioloform® or can be synthesized out of raw materials during the manufacturing process or are added after the manufacturing process. Therefore, such substances are not present in the product, except for those small ubiquitous spread traces, which may be detectable all over the world.
