

KURARAY - MY COMPANY

Stephanie W.
POVAL Resin Operations
Deputy shift supervisor

»I enjoy my work, partly because working in a highly complex plant like this means I face new challenges every day, and partly because I value the good working relationship with my colleagues«

Klaus E.
POVAL Resin Operations
Shift supervisor

»I appreciate the fact that Kuraray invests in our site. My job is varied and challenging. I wouldn't enjoy doing the same thing every day. I like the mixture of monitoring and controlling the plant from the control room and hands-on maintenance work. What's more, the work is well paid!«

Benjamin Feuser
PVB Division
Machine operative, Line 8

»I like coming to work because my performance is recognised and valued. I especially like the fact that team spirit is very important and is actively encouraged here.«

TOGETHER WE

TOGETHER WE MAKE THE
WORLD A LITTLE
BETTER.

Explore your options
at Kuraray

- the global speciality chemicals company
with Japanese roots.

CAREERS IN PRODUCTION

Kuraray - The speciality chemicals company with Japanese roots.

Kuraray was founded in 1926. Today it is a fast-growing global speciality chemicals group headquartered in Tokyo, Japan.

We are one of the largest suppliers of polymers and synthetic microfibres and an international leader in the development and use of innovative high-performance materials.

Kuraray currently has around 10,000 employees worldwide, including about 1,000 in Europe.

KEY PRODUCTS:

- Polyvinyl alcohol (KURARAY POVAL™)
- Polyvinyl butyral (Mowital®)
- Films for laminated safety glass in vehicles and buildings (e.g. Trosifol®)
- Thermoplastic elastomers (e.g. SEPTON™)
- Chemical specialities
- Carbon Materials
- Synthetic fibres (e.g. Vectran®)
- Manmade leather (e.g. Clarino™)
- Dental products (e.g. CLEARFIL™)

HIGH-TECH PRODUCTION AT KURARAY

Our passion for chemistry and our creativity have led to many new and unique products.

We have two production sites in Germany:

- In Höchst Industrial Park in Frankfurt, we produce polyvinyl alcohol (KURARAY POVAL®) and polyvinyl butyral (MOWITAL®). Kuraray is the leading producer of these products in Europe. They are used in many areas of daily life: in paper, textiles, packaging, printing inks, coatings, adhesives, cosmetics and ceramics.

- At our site in Troisdorf, we produce Trosifol® film, which is used as an interlayer in laminated safety glass for vehicles, buildings and solar installations.

JOINING OUR PRODUCTION FACILITIES

For our site in Höchst Industrial Park in Frankfurt, we need shift workers with the following qualifications. There are also some vacancies for work on daytime shifts only.

- Chemical production technicians
- Industrial mechanics
- Electronics technicians for automation technology
- Chemical laboratory technicians

For our site in Troisdorf, we need shift workers with the following qualifications. There are also some vacancies for work on daytime shifts only.

- Process mechanics
- Industrial mechanics
- Electronics technicians for plant engineering
- Chemical laboratory technicians

Basic requirements for all jobs:

You are interested in technical innovation, reliable, robust and resilient.

GOOD REASONS FOR SHIFT WORK:

- Attractive salary plus supplementary payments
- Extended blocks of free time
- Planned working hours
- More flexibility, even on weekdays
- Very good team spirit
- Wide range of career opportunities

At Kuraray, safety has priority over production. Extensive occupational safety measures such as workplace inspections, training, and safety days are used to heighten the safety awareness of all employees.
